We are not a pharmacy but a US company whose goal is to help our clients find the best price on their prescription medication. We work with a number of licensed US and international pharmacies to deliver safe, affordable medication directly to our clients.

We initially started sourcing prescriptions from Canada in 2003 and over the last few years, we have gained access to the world markets with more affordable prices. Currently, we successfully source supplies from the United States, Canada, the United Kingdom, Australia, New Zealand, Germany, Turkey and India.

Each of our pharmacy partners adhere to professional pharmacy standards and require a valid prescription on every order filled. Drug interactions and patient health profiles are carefully reviewed by both licensed physicians and pharmacists during the fulfillment process. Every medication that is available has been manufactured in a facility that has been approved by one of the following:

- U.S. Food and Drug Administration (FDA)
- The Medicines and Healthcare products Regulatory Agency (MHRA – the UK equivalent to the FDA)
- Therapeutic Goods Administration (TGA – the Australian equivalent to the FDA)
- The World Health Organization (WHO)
- Department of Health, Canada (Health Canada)
